NEUROPSYCHOLOGY ASSESSMENT CENTER

WHAT WE OFFER

The **Nova Southeastern University (NSU)**

Neuropsychology Assessment Center aims to

- diagnose disorders of the central nervous system
- provide consultation on the etiology, rate of progression, and prognosis of known or suspected cerebral pathology
- offer recommendations or referrals for treatment

Referral examples include

- differential diagnosis of dementia vs. depression
- evaluation to determine cognitive, emotional, or behavioral symptoms subsequent to head injury
- diagnosis of learning disability, attention deficit hyperactivity disorder, or mental retardation
- determination of mental competence
- diagnosis of Alzheimer's disease, seizure disorders, multiple sclerosis, stroke, and organic mood syndrome
- determination of appropriate school placement
- identification of malingering or symptom exaggeration

FREQUENTLY ASKED QUESTIONS

WHAT CAN I EXPECT?

A complete neuropsychological battery takes approximately 12–15 hours to complete. You will then meet with your clinicians once a week for a three-hour block of

time. To complete the evaluation, you will attend a total of approximately four to five testing sessions in a four- to six-week time period.

After the testing is complete, your clinician will generate a comprehensive neuropsychological evaluation report. This report will consist of relevant patient history (obtained during the intake interview at the first appointment), test results in narrative and data formats, a diagnosis section, and recommendations for further treatment.

During a three-hour feedback session, your clinician will be able to go over the information contained in the report and provide you with a copy of the report.

FEES AND HOURS

NSU provides services at affordable rates.

Services are by appointment only.

Monday–Thursday, 9:00 a.m.–9:00 p.m.

Friday, 9:00 a.m.–5:00 p.m.
